SAMIKSHA SAPAT

Frontend Developer | React.js Developer | 3+ Years Experience

+91 - 8329886470 | samikshasapat03@gmail.com | LinkedIn | GitHub

---

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building **scalable, high-performance, user-centric web applications** using **React.js**, Next.js, **JavaScript (ES6+)**. Specialized in **performance optimization, reusable architecture, and state management** for production-grade applications. Strong experience in **Core Web Vitals optimization, API-driven architecture, and scalable frontend systems**. Proven ability to improve load time, reduce bundle size, and deliver seamless UX in fast-paced Agile environments.

TECHNICAL SKILLS

- **Frontend & Languages:** React.js, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **State & Performance:** Redux Toolkit, Context API, React Query (TanStack), React Hooks, Lazy Loading, Code Splitting, Memoization, Core Web Vitals, Lighthouse Optimization
- **UI & Styling:** Tailwind CSS, Bootstrap, Flexbox, CSS Grid, Responsive Design, WCAG
- **Testing:** Jest, React Testing Library, Unit Testing, Integration Testing
- **API & Integration**: RESTful APIs, Axios, Fetch API, JWT Authentication
- **Tools & DevOps:** Vite, Webpack, Babel, NPM, Git, GitHub, AWS, Vercel, CI/CD
- **Backend & Database:** Node.js, Express.js, Django (Basics), MySQL, MongoDB
- **AI Tools:** ChatGPT, GitHub Copilot
- **Accessibility:** WCAG, ARIA, Semantic HTML

EXPERIENCE

React.js Developer | Softgrowth Infotech | Jan 2024 – Present

- Architected **reusable component ecosystems**, **reducing code duplication by 30%** across multiple modules
- Implemented **lazy loading and code splitting**, decreasing **initial page load time** by **30%**
- Boosted rendering performance using **React.memo, useMemo, and useCallback**, minimizing unnecessary re-renders
- Designed scalable state management architecture using **Redux Toolkit** for complex data flows
- Integrated multiple **REST APIs** with robust error handling and loading states
- Improved **Core Web Vitals (LCP, CLS)**, enhancing overall user experience and performance scores
- Built secure authentication flows using **JWT and role-based access control (RBAC)**
- Executed **CI/CD pipelines** with **GitHub Actions**, enabling faster and reliable deployments
- Collaborated in **Agile teams** to deliver features on time with production-level quality

UI Developer | Softgrowth Infotech | Jan 2023 – Dec 2023

- Developed **responsive, cross-browser compatible UI components** using HTML5, CSS3, and JavaScript, Tailwind CSS, and Bootstrap
- Converted Figma designs into production-ready UI, **reducing inconsistencies by 30%**
- Strengthened **accessibility** compliance using **ARIA** roles and semantic **HTML** practices
- Refined UI responsiveness by optimizing **DOM structure and rendering flow**
- Elevated user engagement through **dynamic**, **accessible interaction** patterns

---

PROJECTS

ArchaVault – Interior Site | https://archivaultdesign.com/react

Tech Stack: React.js, JavaScript (ES6+), Tailwind CSS, MySQL

- Optimized image loading with **lazy loading, srcset, and compression**, reducing load time by **40%**
- Enhanced video performance using **lazy loading and controlled preload**
- Minimized unnecessary re-renders through advanced **memoization** techniques and **useCallback**
- Applied **code splitting and dynamic imports** to improve LCP and overall performance

Granthaa - Real Estate Management Platform | https://granthaadeveloperpvtltd.com

Tech Stack: React.js, Redux Toolkit, JavaScript (ES6+), Tailwind CSS, Express.js, MongoDB

- Engineered **role-based workflows** supporting Admin, Leader, and Advisor hierarchies
- Structured protected routes using **RBAC-driven** conditional rendering
- Managed global state using **Redux Toolkit** for authentication, user data, and property/booking flows
- Delivered property listing and commission modules with scalable logic

ADDITIONAL PROJECTS

- Financial Service Company - **Finworld Solution**
- Responsive Institutional Website - **Balivansh College Website**
- Car Rental & Ride-Sharing Platform - **WhiteCar**
- Data-driven Web Platform - **Integrated Tribal Development Project (ITDP)**
- Government Project Implementation - **ATMA – Agricultural Technology Management Agency**
- Role-based monitoring system - **Security System for Police**

INTERNSHIP EXPERIENCE

Project Trainee | MKCL, Pune | Mar 2022 — Sept 2022

- Constructed **reusable UI components** for ERA LMS using **Vue.js**, **Golang (Go)**
- Reduced load time by **25%** via **performance optimization**
- Enabled advanced features including **search**, **pagination**, and **export** utilities
- Accelerated **MongoDB queries** for faster data retrieval and reduced response time
- Secured application layers using **JWT-based authentication**

EDUCATION

Master of Computer Applications (MCA)

PES Modern College of Engineering, Pune |2019 – 2022

Bachelor of Computer Science (B.Sc. CS)

Janata Mahavidyalaya, Chandrapur |2016 – 2019
